Rack Coordinate System Guide

Pharmacy Management System

Version 1.2 | March 5, 2026

The Coordinate Philosophy

Standardized Grid Mapping

We use a top-down, left-to-right coordinate system (like reading a book):

Natural Reading Order

Top-to-bottom, left-to-right

Instant Orientation

A1 is always Top-Left

The Grid System Explained

Format: **MR-A1**

MR = Rack

A = Col

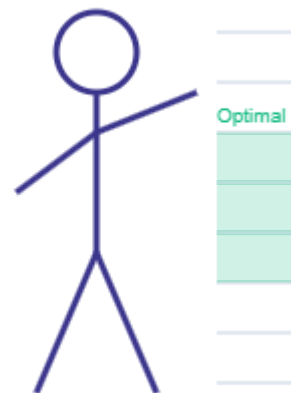

1 = Row

Physical Scale

1 Rack Slot = 12x12 cm

Reach visualization

from racks to receipts

Visual Coordinate Grid

	A	B	C	D	E
1	A1	B1	C1	D1	E1
2	A2	B2	C2	D2	E2
3	A3	B3	C3	D3	E3
4	A4	B4	C4	D4	E4
5	A5	B5	C5	D5	E5
6	A6	B6	C6	D6	E6
7	A7	B7	C7	D7	E7
8	A8	B8	C8	D8	E8
9	A9	B9	C9	D9	E9
10	A10	B10	C10	D10	E10

How to Read Rack Coordinates

Practical guide for pharmacy staff

Finding Slot **MR-C3**

- 1 Locate rack **MR** (Main Rack)
- 2 Find **Column C** (3rd from left)
- 3 Move down to **Row 3** from top

Visual guide to finding C3

Orientation Alert

Start from **Top-Left (A1)**. Letters=Columns, Numbers=Rows.

Height-Based Strategy

Rows 1-2

Overhead • Rare

Rows 3-4

Shoulder • Occasional

Rows 5-7

Waist • Fast-moving

Rows 8-10

Knee • Heavy

Sticker Placement & Verification

Ensuring synchronization

Sticker Orientation

Placement Rules

1 Place sticker on **LEFT SIDE** of shelf opening

2 Keep **2cm** from front edge

3 Scan Barcode to verify

Sticker placement visual

FAQs & Support

We are here to help

Frequently Asked Questions

Q: What if a sticker gets damaged?

Use the "Reprint Label" feature in the MedicineXP Admin panel for that specific slot ID.

Q: Can I add a new rack later?

Yes. Register the new rack in Settings > Rack Management, and the system will generate new coordinates.

Q: The QR code is not scanning.

Ensure adequate lighting and that the sticker is flat. If damaged, please reprint.
